PROFILE

A First Class 2019 Graduate with a unique skill set including excellent interpersonal skills in combination with a strong technical background. I have developed a passion for user experience and have tailored many aspects of my degree, including my Final Year Project, to reflect this.

Captain of my university snowboard team for two years. I took a leadership role and consistently raised the standard of the team and the results achieved.

EDUCATION

De Montfort University

Business Information Systems

SEPTEMBER 2016 – JULY 2019

Degree Classification: **First Class**

DMU SNOW Society – Snowboard Captain

SEPTEMBER 2018 – JULY 2019

Dauntsey's School

SEPTEMBER 2007 – JULY 2014

A Levels: Maths – Economics – Physics

GCSEs: 9 As

Captain: Rugby Team

SEPTEMBER 2012 – JULY 2013

Went unbeaten for 2 years including the year under my captaincy.

EMPLOYMENT

Immediate Media Co.

CMS Assistant

SEPTEMBER 2019 – CURRENT

I currently work on a website migration project with Immediate Media Co. transferring data onto the new "Fabric" system. Most recently, I have been fixing broken content and page errors to increase overall site health.

The brands I have worked on include: BBC Countryfile, BBC Discover Wildlife, Homestyle UK, Your Home, EKBB and KBB Daily.

The Winterbourne

Barista and Bartender

SEPTEMBER 2019 – NOVEMBER 2019

Customer facing role in a French influenced country pub. I was afforded a lot of autonomy and I managed myself during this period of work. This taught me to be confident in making my own decisions.

I trained other staff members and created new menu items when new drinks and desert cocktails were needed.

SKILLS

User Experience
Adobe XD
Html
CSS
Responsive Design
Git
Google Analytics
Power BI
ITIL

User Experience and Adobe XD:

I spent a significant portion of my degree working on my Final Year Project where I designed using XD and focused my research on UX and how user psychology affected their behaviour while using systems.

HTML, CSS, Responsive Design and GIT:

Extensively used HTML, CSS and have acquired knowledge of JavaScript while completing assignments in my degree and doing some freelance website development. Throughout all of this I have maintained mobile first design and have managed version control with GIT.

Google Analytics and Power BI:

On my internship for Immediate Media Co. I used both platforms to assist the UX and Business Analytics teams and provide them with data they required. I Also created analytics dashboards with Power BI from the data collected.

ITIL:

Completed the ITIL foundation in my second year of Uni and passed the certification.

EXPERIENCE

Immediate Media Co. Intern

JULY 2018 – SEPTEMBER 2018

Intern for Immediate Media Co. in London and Bristol. I spent time with several teams, including: UX, Marketing, Business Analysis, Apps and Data. This gave great insights into how a mid-sized publishing firm operates across all areas.

Worked with Google analytics, Power BI, Swift and Node JS and Node RED. I managed my own time on individual projects and did a lot of research in these areas for potential future projects.

Yodel Ski School. Niigata – Japan Ski and Snowboard Instructor

DECEMBER 2015 – MAY 2016

Taught a range of mostly Japanese, Australian and Chinese clients in private and group sessions. This developed my interpersonal and presentation skills and improved my understanding of other cultures. I gained the ability to manage my time and lead/run a session on my own and was able to consistently maintain a safe working environment.

Giraffe Barista and Bartender

APRIL 2015 – DECEMBER 2015

Customer facing role in a 200 cover restaurant. I worked and thrived under pressure and this taught me to be confident in making my own decisions and prioritising work. Working in a high pressure environment like this ensured that I was able to fix problems and sort out situations as they occurred without having to resort to support from higher level staff.
